TERMS & CONDITIONS

PRODUCT DIMENSIONS

All dimensions and weights shown are to be considered approximate as a majority of the products are manufactured in countries using the metric system; all measurements are converted from metric units.

Please note that all finishes on our marketing materials and website are approximate due to the variation in color monitors and the processes of photography and printing.

ASSEMBLY

Some products require assembly; please refer to the instructions included with item packaging or visit our website for information on assembly instructions. If instructions are not available, please contact your sales rep or Bum Commercial Furniture USA - LLC.

WARRANTY

This limited warranty does not apply to damage resulting from accident, alteration, misuse, tampering, negligence, abuse or normal wear and tear. All items must be properly assembled per instructions.

The warranty is only valid if all parts that wear, such as chair foot caps, get replaced at least annually. Parts must be purchased within one month of replacement time and proper maintenance must be followed. Product failure caused by a lack of reasonable and necessary care and maintenance is not covered under warranty.

CARE & MAINTENANCE

GENERAL MAINTENANCE

As with any equipment, proper and periodic maintenance is necessary to ensure longevity of the product and customer satisfaction. To ensure you get the most out of your investment, please follow our recommended maintenance and care instructions.

We recommend that the products be examined every 30 days. Items requiring adjustments, showing any sign of structural failure, that have missing hardware or that show any cracks at the welds should be taken out of service immediately until repaired.

Loose screws should be tightened as required and missing or worn out foot caps must be replaced.

To obtain replacement parts, please contact Bum Commercial Furniture USA - LLC.

Furniture should be handled with care. When chairs are stacked, the stack should not be dragged. Stackable chairs should not be dropped or slammed down when being un-stacked. People should not rock backwards or stand on.

For storage, all furniture should be stored neatly, stacked to suggested height, and packed in a clean and dry area. Tables should not be flipped and stacked; any standing water needs to be removed to avoid damage to finish. Cushions that are stored for longer periods of time should be stored in a dry ventilated area.

NOTE: Warranty may be voided if proper maintenance or care is not followed.

PRICING

All prices published are "LIST" and "SELL PRICE" price per single unit, and do not include shipping costs, taxes or installation. Due to frequent international monetary fluctuations, we reserve the right to change prices without notice.

Muskoka Teak

Solid Natural Teak • 8 pre-drilled stainless steel inserts to connect to Nardi table bases • Tops are 1" thick

Teak is very durable and has its own natural oils which prevent water and moisture from penetrating the wood. It will develop a warm gray patina over time or it can be oiled annually to maintain the new wood look. Teak requires virtually no maintenance and can be left on the patio during the summer months.

SELECTSPACE PARTITIONS

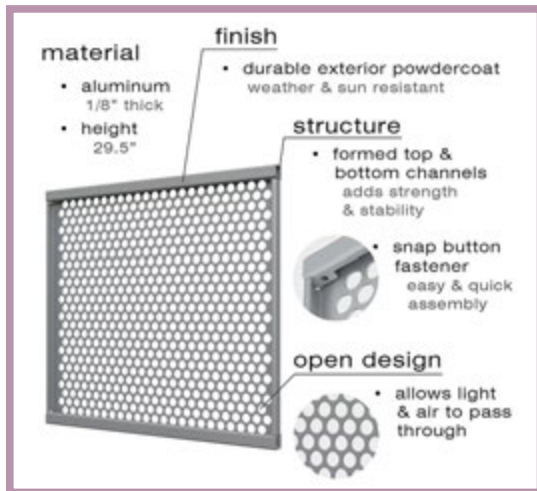

Super easy to install! The only components that need assembly are the regular stands, all the other components come ready-to-use right out of the box. The panels and stands connect quickly and easily with spring push-buttons. Temporary or permanent, all the SelectSpace stand bases come with bolt hole knock-outs that can be removed and used to bolt the partitions into the ground. If you want your system to be easily removable, simply leave the knock-outs in place.

Panels are fabricated from heavy gauge perforated aluminum. Posts are heavy gauge aluminum and stainless steel bases, with leveling legs for uneven ground.

All components are powder coated and rust proofed.
