CATALOG

ABOUT TEAKHAUS

Teak is one of the most beautiful woods on earth. That's why we transformed this luxurious material into stylish and functional products. Our inspiration: **the love of food, passion for cooking, and respect for our planet.**

All our products are certified FSC®, meaning we are committed to driving a positive impact on forestry communities and wood artisans around the world.

As part of our manufacturing process, we ensure the optimal use of wood, minimizing waste, while carefully selecting each piece of wood to create an aesthetic pattern making each product one-of-a-kind.

We are food lovers!

Let us inspire your cooking creativity!

WINNER SINCE 2013 AMERICA’S TEST KITCHEN

TRADITIONAL EDGE GRAIN 107

Are some cutting boards gentler on your knives? A good cutting board is a knife’s best friend, and according to America’s Test Kitchen we are “The Last cutting board you will ever need”.

Our 107 Rectangle Edge Grain Cutting board is spacious enough when trimming big roasts or slicing long bunches of leafy greens. It’s heavy enough to provide stability and large enough to accomplish all your prepping needs.

THE BEST WOOD

A board’s durability is related to the type of wood it’s made of. Teak is a tropical wood with a high oil content that acts as a water repellant. Teak’s medium hardness provides a luxurious cutting experience while keeping your knives sharp. Teak is easy to maintain. With only a few oil drops your boards will look like new again.

TRULY ECO-FRIENDLY

We are passionately committed to the environment. The teakwood we use comes from sustainable forests. Our products hold the FSC® certification.

“THE LAST CUTTING BOARD
YOU WILL EVER NEED”

DRIVEN BY SUSTAINABILITY

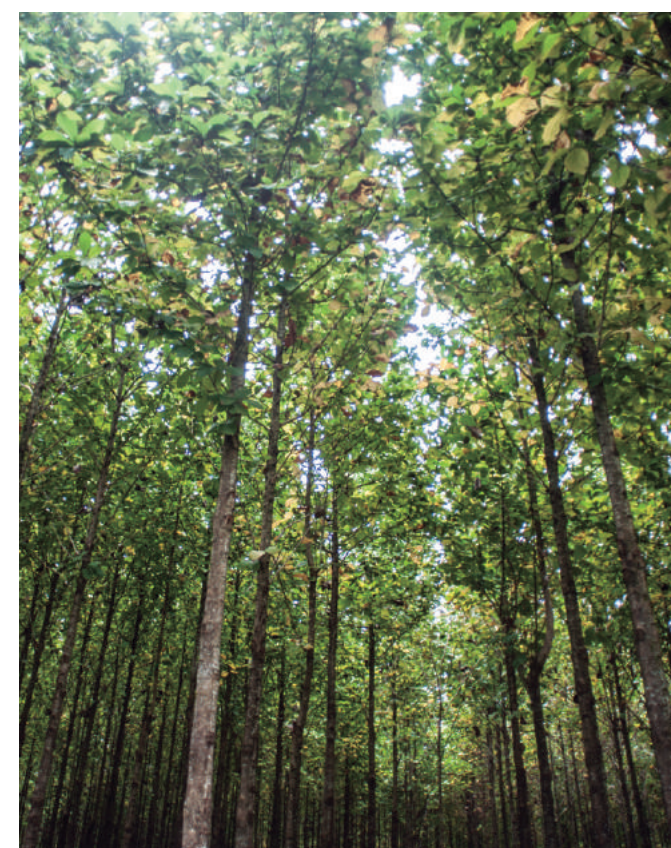

All our products hold the FSC® certification. Forest Stewardship Council (FSC®) is an International Organization which certifies that all the teakwood we use to produce our products comes from well managed forests.

We praise the use of wood in the kitchen and we are sure that we are putting forth sustainable products, where you feel your purchase has contributed to a much higher purpose.

With the FSC® Certification you can buy wood products, with a clear conscience that the trees harvested are replaced or allowed to regenerate naturally.

WE AIM TO CHANGE HOW FORESTS
ARE CARED FOR AROUND THE
WORLD

This is a representation of us and our brand. It is part of our story, our mission and our vision.

The mark of
responsible forestry
FSC® C006434

WHY TEAKWOOD?

Teak is a tropical known for durability and stability. Its naturally high oil content works as a “built-in” natural water repellent. Teak’s natural beauty, the yellow-brown to dark golden heartwood and white sapwood builds a great color combination and texture on our cutting boards.

The hardwood grain of the teak will keep your knives sharp, at the time it provides a smooth feeling while cutting or slicing. The Moisture-resistance and high oil content are qualities that will keep your boards in perfect conditions for long periods.

With minimal care and a few drops of oil once a month you will keep your boards looking beautiful for years to come. For all these reasons, Teak wood is an ideal wood for Kitchen needs.

IT'S NEVER TOO LATE TO START COOKING!

Do it on our teak cutting boards and level up your experience to amazing, remember that cooking inspires many aspects of our creativity!

LET US INSPIRE
YOUR COOKING CREATIVITY!

BUTCHER BLOCK
COLLECTION

A piece of art in your kitchen! One of our favorite collections. The End Grain construction makes it a glorious expression of the woodwork. It's thick and heavy for daily work in the kitchen and gives you that ideal smooth cut under your knife. It's a must for those who view cooking as a piece of art or for those who spend plenty of time in the kitchen.

ETERNAL CARE FOR YOUR
CUTTING BOARDS

Why is this a better formula?

- Natural beeswax helps to seal out odors and stains, making your cutting board easy to clean.
- Coconut oil helps to condition and maintain the wood's natural oil and beauty.
- Orange Essential Oil - Lightly scented that doesn't interfere with your cooking and combines perfectly with the natural oil scent of the teakwood!
