A Softer Take on the Floral Motif

Embracing the Neo-Romantic tendencies in art and fashion, the Baroness Collection takes the floral motif in abstraction—the lotus flower. A softer, more sculptured alternative to traditional round plates and bowls. This collection is imagined to serve traditional menus, yet with enough accessories and serveware pieces to add interest to everything from afternoon teas and sharing platters to small bowls and plates for tasting delicacies.

Hampton **NEW** ☆☆☆☆

Classic Inspiration, Modern Presentation

Inspired by traditional English creamware, the Hampton Collection reinterprets classical forms and table services. Details and proportions are drawn from old pewter ware, yet the collection's retro inspiration is balanced with shapes and combinations suited for modern dining. Presentation plates allow for contemporary plating while also serving as underliners for bowls with covers. Modern yet classical, Hampton pieces are made in Maxadura for durability, strength, and a rich, warm cream hue. Together, the pieces create a tabletop with rustic overtones, complemented by a touch of modernity, evoking the familiarity of home cooking, conviviality, and simple, delicious recipes without fanfare.

Minimal Elegance, Homely Charm

The Hampstead Collection, inspired by the Old English meaning of “homestead,” returns to a more familial aesthetic. Fluted details add subtle relief to refined shapes, creating sophistication with simplicity. A sister collection to Hampton, Hampstead embodies minimal elegance. Fluted bowls, cups, and plates highlight the purity of the forms and draw focus to the food presented. Echoing traditional tableware used in homes and country houses, the collection is renewed through subtle detailing and the absence of the superfluous. Warm cream tones in Maxadura provide a “kitchen to table” immediacy, perfectly suited to hearty meals from seasonal menus.

Where Earth Meets Flame

Fire from Off Grid Studio is designed by Potter Sam Gordon to blend the look of hand-crafted pottery with modern durability. Inspired by the raw beauty of wood-fired ceramics, *Fire* captures the essence of this traditional process, where wood is the sole fuel and the kiln requires constant attention to reach and maintain high temperatures. As the wood burns, its natural minerals vaporize and interact with the clay, creating organic, brush-like glaze effects that only nature can achieve. Offered in three semi-matte glazes, Smoke, Timber, and Ember, each piece is intentionally reactive, showcasing unique highlights, subtle color shifts, and one-of-a-kind edge details. Available in nine shapes across coupe and presentation-style profiles, *Fire* pairs timeless craftsmanship with functional elegance for today's tabletop.

"Wood-fired ceramics is, in my opinion, the truest form of pottery; the clay is dug from the earth, touched by hands, and transformed by fire." -Sam Gordon

Handmade & Organic Appeal

Forager by Robert Gordon is designed with a carefully applied reactive glaze that free-flows over each shape to create a unique finish that is different on every piece. Featuring an unglazed bottom, this collection highlights the richness of raw materials through exposed stoneware and offers a handmade & organic appeal. From the creator himself, Robert “Andy” Gordon, he compares the signature tray design to “tree bark once used to gather things such as forage seeds, berries, and roots for the forest”, hence its namesake, Forager. Unlike any other, these enduring & functional shapes are finished with a stamp of Andy’s handwritten signature and will enhance any foodservice presentation.

High-Quality Knives

Designer Adam Simha comes from a background in culinary arts, homeware design, and metalworking. Throughout his career, he transitioned from early roles in food establishments to becoming a skilled bladesmith. Three years after founding MKS Design in 1998, Simha quickly shifted his focus to knife-making full time. Through years of experience, he developed this range of custom-designed steak knives, catering to culinary enthusiasts seeking high-quality cutlery. These knives are the culinary tools you will always reach for, feel compelled to care for, and never want to put down.

Elevated Design, Effortless Seasoning

The Palm Bright Salt and Pepper Mills with tray feature a distinctive fluted design in premium 18/10 stainless steel with a high polish finish that adds sophistication to the table. Each mill includes a high-performance CrushGrind ceramic mechanism, adjustable from fine to coarse and easy to refill from the top. Black and white collars clearly distinguish salt from pepper, while the matching tray holds the mills securely and helps keep surfaces clean. The vertical fluting enhances the look and helps reduce the appearance of fingerprints.
